## Summary

I am a .NET Junior Software Engineer with a strong foundation in software development and a passion for innovation. Specializing in .NET technologies, I excel in creating efficient and scalable applications tailored to meet diverse business needs. Beyond my expertise in .NET, I am also well-versed in web development, leveraging platforms like Webflow to design visually appealing and user-friendly websites. Additionally, my skills extend to mobile application development, where I specialize in building cross-platform solutions that deliver seamless experiences across devices. With a proactive approach to learning and a commitment to staying abreast of industry trends, I am poised to contribute effectively to projects that demand creativity and technical excellence.

---

## Experience

### Freelance (Self employed)

6 years

#### Frontend Web Developer

2018 - Present (6 years)

As a guest website designer, I specialized in creating visually stunning and functional websites using both Webflow and WordPress platforms. With experience in Webflow, I designed and developed responsive websites with ease, leveraging its intuitive interface and powerful features to bring clients' visions to life. Additionally, I utilized WordPress to craft dynamic and customizable websites, utilizing its extensive library of themes and plugins to meet diverse project requirements. My experience in web design allows me to deliver tailored solutions that align with clients' branding objectives and user experience goals.

#### Mobile Application Developer

January 2021 - May 2024 (3 years 5 months)

I completed a comprehensive Mobile Application Development Certification program, equipping myself with the skills and knowledge necessary to excel

in the dynamic field of mobile app development. Throughout the program, I gained expertise in mobile app design principles, development frameworks, and platform-specific technologies, allowing me to create innovative and user-centric mobile solutions. This certification has not only enhanced my technical proficiency but also prepared me to tackle the challenges of modern app development with confidence and creativity.
